a
Constant relative humidity
Constant dew point
World mean PUE (kWh kWh^{-1})
Warming (°C)
b
Constant relative humidity
Constant dew point
World mean WUE (L kWh^{-1})
Warming (°C)
c
water price λ^* = 0.0166 kWh L^{-1}
Operating-policy frontier
Production policy
Energy-only optimum
Water optimum
PUE (kWh kWh^{-1})
WUE (L kWh^{-1})
d
world: -64% water
Evaporative baseline
Direct liquid cooling
Class 1
Class 2
Class 3
Class 4
WUE (L kWh^{-1})
